THE UNIVERSITY OF BRITISH COLUMBIA

Curriculum Vitae for Faculty Members

Date: June 2026 **Initials**: JQD

1. SURNAME

SURNAME: Doe
FIRST NAME: Jane
MIDDLE NAME(S): Quinn

2. DEPARTMENT/SCHOOL

Department of Statistics

3. FACULTY

Faculty of Science

4. PRESENT RANK

Assistant Professor **SINCE**: July 1, 2022

5. POST-SECONDARY EDUCATION

University or Institution	Degree	Subject Area	Dates
University of Toronto	PhD	Statistics	2016
McGill University	M.Sc.	Biostatistics	2011
University of Victoria	B.Sc.	Mathematics	2009

Special Professional Qualifications

- P.Stat., Statistical Society of Canada [2019– present]

6. EMPLOYMENT RECORD

(a) Prior to coming to UBC

University employment

University	Rank or Title	Dates
Stanford University	Postdoctoral Fellow	2016–2017
University of Toronto	Research Assistant, Teaching Assistant	2011–2016

Non-university employment

Company or Organization	Rank or Title	Dates
Example Analytics Ltd.	Data Scientist	2017–2018

(b) At UBC

Rank or Title	Dates
Assistant Professor	2022–
Research Associate	2022
Postdoctoral Research Fellow	2018–2022

(c) Date of granting of tenure at UBC

(not yet granted)

7. LEAVES OF ABSENCE

Organization	Type of Leave	Dates
UBC	Parental leave	2024/09–2025/03

8. TEACHING

(a) Areas of special interest and accomplishments

I teach statistical methodology and reproducible data analysis, with an emphasis on bringing current research practice into undergraduate and graduate classrooms. My courses combine theory with hands-on work on real data sets, and all course materials are maintained in version control so students can see how the analysis was built.

(b) Courses Taught at UBC (both undergraduate & graduate)

Session	Course	Sched. hrs	Class size	Lect.	Tut.	Labs	Other
2025–2026							
2025W1	STAT 200	9	60	2	6		1
2025W2	STAT 406	6	45	1	3		1
2024–2025							
(no courses taught)							
2023–2024							
2023W1	STAT 200	9	75	2	6		1
2023W2	STAT 406	8	40	2	2	2	1

STAT 200 (3 credits) ***Elementary Statistics for Applications***

Descriptive statistics, probability, sampling distributions, confidence intervals and hypothesis testing, applied to problems from across the sciences. [2-0-2]

STAT 406 (3 credits) ***Methods for Statistical Learning***

Model selection, regularization, resampling, and modern methods for regression and classification, with reproducible case studies. [2-0-2]

(c) Graduate Research Supervision

Student Name	Program	Start	Finish	Supervisory Role
MSc Supervision				
Rosa Roe	MSc	2024	2026	Supervisor
Edgar Poe	MSc	2025		Supervisor
Undergraduate Research Assistants				
Alex Kim	RA	2024		Supervisor

(d) Graduate Program Supervision

Student Name	Program	Start	Finish	Supervisory Role
Morgan Lee	PhD	2024		Committee member

(e) Continuing Education Activities

Workshop Development and Presentation

Workshop Title	Host	Role	Date	Hours
Workshop on reproducible research workflows	UBC Centre for Teaching, Learning and Technology	Co-facilitator	2025/11/14	3.0
R for Data Analysis (two-part series)	UBC Library Research Commons	Instructor	2024/10/xx	6.0

Workshop Attendance

Workshop Title	Host	Date	Hours
Tri-Agency Grant Writing Workshop	UBC SPARC	2025/02/12	2.0
Data Privacy and Security Training	UBC	2023/09/18	1.0

(f) Visiting and Guest Lecturer (indicate university/organization and dates)

University	Course	Topic	Date	Hours
UBC	STAT 406	Guest lecture: cross-validation in practice	2025/03/11	1.5

(g) Other

Directed Studies Student Supervision

Session	Course	Topic	Credits
2024W2	STAT 449	Bayesian hierarchical models for ecological data	3

Work Learn and Student Internship Supervision

Student Name	Program Type	Start Date	End Date
Priya Patel	UBC Work Learn	2024/05/06	2024/08/30

Courses Taught Prior to UBC

Session	Course	Sched. hrs	Class size	Lect.	Tut.	Labs	Other
STAB 52 (Introduction to Statistics) [Queen's University]							
2016	STAB 52	4	90	2	2		

STAB 52 (3 credits) ***Introduction to Statistics*** **[Queen's University]**

Core concepts of statistical reasoning for students in the life sciences. [2-1-0]

9. SCHOLARLY AND PROFESSIONAL ACTIVITIES

(a) Areas of special interest and accomplishments

My research develops statistical methods for environmental and ecological data, with emphasis on estimability under imperfect observation, reproducibility, and open software. I work with government agencies and non-profit partners to make monitoring programs and their analyses more informative for decision-making.

(b) Research or equivalent grants (indicate under COMP whether grants were obtained competitively (C) or non-competitively (NC))

Agency	Subject	COMP	$ (total)	Year	Principal Investigator	Co-Investigator(s)
Natural Sciences and Engineering Research Council of Canada (Discovery Grants program)	Robust estimation for hidden ecological processes	C	120 000	2023	**Jane Q. Doe**	
Canada Foundation for Innovation (John R. Evans Leaders Fund program)	A computing cluster for environmental statistics	C	200 000	2022	**Jane Q. Doe**	B. Baker C. Chen
UBC (Teaching and Learning Enhancement Fund program)	Reproducible assignments for STAT 200 and STAT 406	NC	15 000	2024	**Jane Q. Doe**	

(c) Research or equivalent contracts (indicate under COMP whether contracts were obtained competitively (C) or non-competitively (NC))

Agency	Subject	COMP	$ (total)	Year	Principal Investigator	Co-Investigator(s)
Environment and Climate Change Canada	Statistical review of national monitoring programs	NC	25 000	2023	**Jane Q. Doe**	

(d) Invited Presentations (Identify whether International/National/Local)

2. **Doe, J.** (2026). *Reproducible workflows for statistical consulting*. Department of Statistics seminar series. UBC Vancouver. Invited speaker. 2026/03. [local]
1. **Doe, J.** (2025). *The case for open statistical education*. Example Society for Statistical Education annual conference. Toronto. Keynote. 2025/06. [national]

(e) Other Presentations

Symbol key: * presenting author; ^ highly qualified personnel (HQP)

3. **Roe, R.***^ and **Doe, J.** (2025). *Robust estimators for clustered count data*. Example Society annual meeting. Calgary.
2. **Doe, J.*** and Poe, E. (2024). *A unified framework for measurement-error corrections*. Example Society annual meeting. Halifax.
1. Garcia, M.* and **Doe, J.** (2023). *When does model averaging help? A simulation study*. Regional statistics colloquium. Victoria.

(f) Other

(none to report)

(g) Conference Participation (Organizer, Keynote Speaker, etc.)

- Session Chair, Example Society Annual Meeting 2025, Calgary
- Discussant, Workshop on Open Science in Statistics, Banff International Research Station, 2024

SERVICE TO THE UNIVERSITY AND THE COMMUNITY

10. SERVICE TO THE UNIVERSITY

(a) Areas of special interest and accomplishments

I contribute to departmental and faculty committees with a focus on curriculum and research computing, and I support the department's teaching evaluation processes.

(b) Areas of service undertaken to advance the inclusion of all those who have been historically excluded based on gender, race, religion, sexuality, age, disability, or economic circumstance

- Member, EDI Committee (UBC Faculty of Science), 2023–

(c) Memberships on committees, including offices held and dates

- Member, Statistics Curriculum Committee (UBC), 2023–
- Member, Master of Data Science Admissions Committee (UBC), 2022–2024

(d) Other service, including dates

- Peer reviewer for the Department of Statistics teaching evaluation process, 2024
- Organized the departmental seminar series, 2023

11. SERVICE TO THE COMMUNITY

(a) Service undertaken to advance the inclusion of all those who have been historically excluded based on gender, race, religion, sexuality, age, disability, or economic circumstance

- Member, Equity, Diversity and Inclusion Committee, Example Statistical Society, 2024–

(b) Memberships on scholarly societies, including offices held and dates

- Member, Statistical Society of Canada, 2016–
- Treasurer, Local Chapter of the Example Statistical Society, 2022–2024

(c) Memberships on other societies, including offices held and dates

(none to report)

(d) Memberships on scholarly committees, including offices held and dates

- Member, Program Committee, Example Society Annual Meeting 2025

(e) Memberships on other committees, including offices held and dates

(none to report)

(f) Editorships (list journal and dates)

(none to report)

(g) Reviewer (journal, agency, etc. including dates)

Role	Journal or Organization	Date
2026		
Manuscript Reviewer	Journal of Reproducible Methods	2026/04
Manuscript Reviewer	Statistics in Practice	2026/02
Grant Proposal Reviewer	NSERC	2025/11
2025		
Manuscript Reviewer	Computational Statistics Quarterly	2025/07

(h) External examiner (indicate universities and dates)

- External examiner, MSc thesis (University of Example), 2025

(i) Consultant (indicate organization and dates)

- Example Analytics Ltd., 2022–2023

(j) Other service to the community

(none to report)

(k) Popular Media

Role	Description	Date
Interview	Why reproducibility matters for public data Example News	2025/03/14
Article	Open data, better decisions Example Herald	2023/11/02

12. AWARDS AND DISTINCTIONS

(a) Awards for Teaching (indicate name of award, awarding organizations, date)

Name of Award	Awarding Organization	Dates	Award Details
Example Teaching Excellence Award	UBC Department of Statistics	2024	

(b) Awards for Scholarship (indicate name of award, awarding organizations, date)

Name of Award	Awarding Organization	Dates	Award Details
Best Paper	Example Society Annual Meeting	2025	
Postdoctoral Fellowship	Stanford University	2016 2017	

Awards received by HQP under my supervision are listed below.

HQP Name	Name of Award	Awarding Organization	Dates	Details
Rosa Roe	Example Graduate Scholarship	Example Foundation	2025	$5 000
Edgar Poe	Best Student Poster	Example Society	2024	

(c) Awards for Service (indicate name of award, awarding organizations, date)

- Example Society Service Award, 2024/06

(d) Other Awards

(none to report)

13. OTHER RELEVANT INFORMATION (Maximum One Page)

Research partnerships: I work with federal and provincial monitoring agencies, and with non-profit conservation organizations, to translate environmental data into defensible statistical evidence. These partnerships shape both my methods research and the training my students receive.

Open scholarship: All software and course materials I develop are released under open licenses. I maintain the rexample package, which implements several of the methods from my research in a form that practitioners can apply directly.

In summary, my program combines methodological research, open software, and sustained partnerships with data-using organizations. This mix keeps the research grounded in real problems and gives students experience with the full arc from question to reproducible answer.

THE UNIVERSITY OF BRITISH COLUMBIA

Publications Record

SURNAME: Doe **FIRST NAME**: Jane **Initials**: JQD
MIDDLE NAME(S): Quinn **Date**: June 2026

Symbol key: ^ highly qualified personnel (HQP); * publication of primary importance.

1. REFEREED PUBLICATIONS

(a) Journals

3. ***Doe, J.** and **Roe, R.**^ (2026). *An adaptive design for estimating species richness under imperfect detection*. Journal of Reproducible Methods, 14(2), 101–119. DOI 10.1000/example.2026.001.
2. **Doe, J.** and **Poe, E.**^ (2025). *Sparse smoothing for spatially unbalanced monitoring data*. Statistics in Practice, 8, 55–71. DOI 10.1000/example.2025.014.
1. **Roe, R.**^ and **Doe, J.** *Multilevel models for hierarchical detection histories*. Computational Statistics Quarterly. (in press)

(b) Conference Proceedings

1. **Poe, E.**^ and **Doe, J.** (2024). *Comparing estimators of occupancy when detection varies by observer*. Proceedings of the Example Society Annual Meeting. Halifax, Canada.

(c) Other

1. **Doe, J.** (2024). *A reproducible assignment template for introductory statistics*. Example Teaching Repository. https://example.org/teaching/assignment-template.

2. NON-REFEREED PUBLICATIONS

(a) Journals

1. **Doe, J.** and Nguyen, A. (2023). *A practitioner's guide to reporting uncertainty in monitoring summaries*. The Example Statistician, 62(4), 18–24.

(b) Conference Proceedings

(none to report)

(c) Other

1. **Doe, J.** (2021). *An evaluation of uncertainty reporting in agency monitoring summaries*. Technical report prepared for Example Agency.

3. BOOKS

(a) Authored

1. **Doe, J.** (2025). *Applied Reproducible Statistics*. Example Press, ISBN 978-1-000-00000-0. 250 p.

(b) Edited

1. **Doe, J.** (editor) (2024). *Modern Methods for Environmental Statistics*. Example Press, ISBN 978-1-000-00001-7. 312 p.

(c) Chapters

1. Example Standards Committee (2023). *Guidelines for reproducible reporting of statistical results*. In Doe, J. (Ed.), Modern Methods for Environmental Statistics. Example Press.

4. PATENTS

1. **Doe, J.** and Poe, E. (2024). *Method and apparatus for adaptive sampling of ecological communities*. US Patent 12,345,678.

5. SPECIAL COPYRIGHTS

(none to report)

6. ARTISTIC WORKS, PERFORMANCES, DESIGNS

(none to report)

7. OTHER WORKS

1. **Doe, J.** (2023). *rexample: An R package for reproducible sampling designs*. https://example.org/rexample.

8. WORK SUBMITTED (including publisher and date of submission)

1. **Doe, J.** and Garcia, M. *Estimating trends from fragmented monitoring records*. Submitted to Journal of Statistical Software (2026/05).

9. WORK IN PROGRESS (including degree of completion)

1. Nguyen, A. and **Doe, J.** *A comparison of correction methods for observer error*. In preparation. (85% complete)
